

Beltrac® Tempest

Now just **\$68⁵⁰ net** (a limited-time offer)

Our unique, centrifugal belt-braking system ensures a slow and safe retraction if accidentally released.

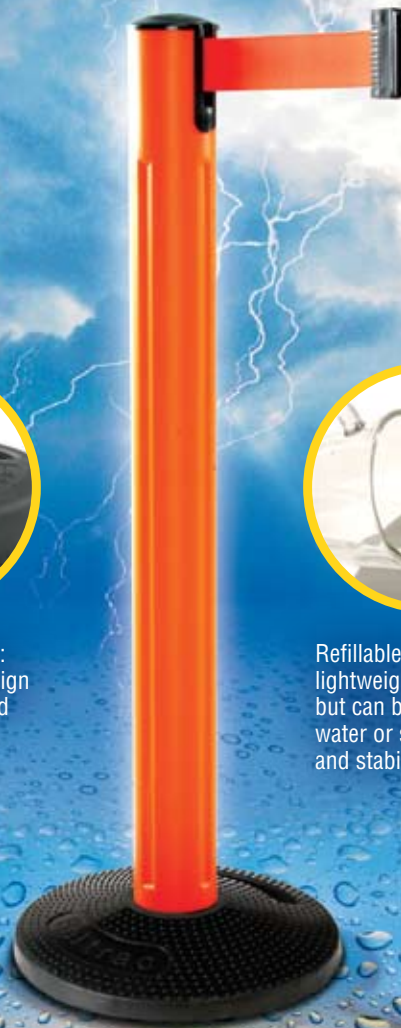

Post-to-base assembly: Quick "push-snap" design for easy connection and setup.

Refillable base option is lightweight for transport, but can be easily filled with water or sand to add weight and stability.

Choice of 15 belt colors (standard) in addition to two safety messages (for a small additional charge).

The all-weather outdoor stanchion built for strength and endurance.

- Choice of two base options: Solid rubber for weight, strength and durability, or hollow refillable version for lightweight transport.
- 1 year warranty on post and mechanism.
- Designed for quick, on-site assembly, easy transport and storage.
- Constructed of weatherproof HDPE (High Density PolyEthylene) plastic.
