
Qtrac CF takes your single-line queue to the next level, using wireless technology, digital signage, and register lights to transform the checkout experience.

Provide Social Distancing
Eliminate crowds around checkout stands and keep the main aisle clear while using digital signage to inform customers of store policies.

Increase Service Rate / Decrease Wait Times
Optimize the entire checkout experience with an efficient “hailing” process that reduces the time between services, while decreasing real and perceived wait times.

Boost Profits
Use Qtrac’s built-in digital signage to promote, market, and inform a captive audience. An even bigger win when combined with NeXtrac In-Queue Merchandising Fixtures.

Digital signage capitalizes on a captive audience to promote, advertise, and inform.

Digital screens display clear audio and visual directions, increasing service rates and reducing wait times.

Integrated register lights help guide customers to open checkout registers.
Experience the benefits of a Qtrac Single Line Queue.

As part of an integrated checkout solution, Qtrac CF Electronic Queuing becomes a powerful tool to decrease wait times, increase revenue, and improve the customer experience.

**Decrease Average Wait Time**
A more efficient hailing process increases customer flow and drives down average wait times.

**Increase Customer Throughput**
Minimizing confusion about open registers reduces service lag and helps spread loads more evenly, increasing efficiency.

**Reduce Perceived Wait Time**
Digital signage keeps waiting customers occupied, a proven way to reduce the perception of passing time.

**Drive Impulse Sales**
For retailers, Qtrac CF's digital signage delivers marketing and advertising opportunities to a captive audience.

**Install Quickly and Easily**
Qtrac CF is technology at its finest. Simply mount the LCD, plug in the remotes and it’s good to go!
