

Transport/Storage Carts

Shuttletrac® Stanchion Storage and Deployment System

Features & Benefits:

Convenient Storage

- Post transporters store 12 or 18 Public Guidance stanchions in a small footprint.
- Easy storage even in tight places.
- Aesthetic design allows for storage in visible locations.

Durable Construction

- Powder-coated steel and HDPE construction withstands heavy use out in the field.
- High strength-to-weight ratio.

Rapid Deployment

- Quickly deploy the right amount of posts when and where you need them.
- Labor cost savings – One person can easily handle a large amount of posts.

Transport/Storage Carts

Shuttletrac® Stanchion Storage and Deployment System
