

Slatwall End Caps

Parts:

Slatwall End Cap

Phillips Screwdriver

Goggles

Required Tools

1. Using a Phillips screwdriver, loosen both Grip Connectors located on the back of the Slatwall End Cap. (Figure A)
2. Insert Grips on the Slatwall End Cap into the dovetail groove of the Beltrac post and slide to desired height. (Figure B–C)
3. Secure the End Cap by tightening the screw on the Grip Connectors with a Phillips screwdriver. (Figure D).
4. Add Shelves, Baskets or Hooks as desired.
