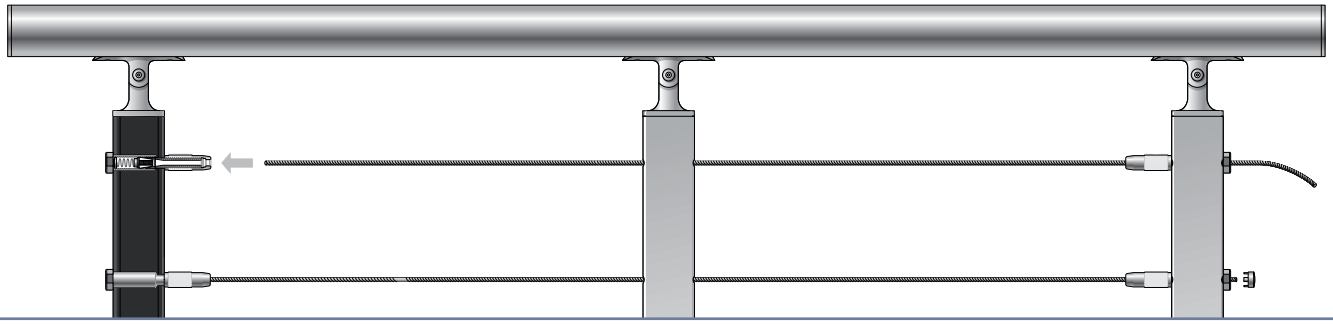
C.A.T Cable Railing System

STAINLESS STEEL 316 RAILING SYSTEMS

Lavi Industries



C.A.T. CABLE RAILING SYSTEM for bulk-roll 1/8" cable

Captive Anchoring and Tensioning Cable Railing Posts

C.A.T. Cable Railing Posts work as both anchor and receiver posts. Simply feed cable through the built-in cable guides. Our patent-pending design ensures that the cable travels in a one-way direction and won't pull out. Then simply tension the cable from either end using a socket or box wrench. The built-in cable fitting prevents cable rotation and permits single-handed tensioning.

Simplifies Project Planning and Ordering:

- With built-in cable receiving AND anchoring in every post, you'll always have the exact type of end post you need.
- C.A.T. Cable Railing Posts accept bulk-roll, continuous cable—no need to plan out and buy specific cable lengths with coupled fittings, just roll out what you need at the jobsite and cut to length.

Makes Installation Quick and Easy:

- Built-in cable tensioning fittings hold the cable in place preventing rotation, permitting single-handed cable tensioning from either end using a simple socket or box wrench.
- C.A.T. Cable Railing Posts are prefabricated and ready to install right out of the box. No welding or post assembly required.

With Captive Anchoring and Tensioning Posts, Installation is Quick and Easy.

1. MOUNT PREFABRICATED POST.

2. PULL CABLE THROUGH FITTING.

3. TENSION CABLE FROM EITHER END WITH A SINGLE TOOL.
