## C.A.T. CABLE RAILING SYSTEM for bulk-roll $\frac{1}{8}$ " cable

### Captive Anchoring and Tensioning Cable Railing Posts

C.A.T. Cable Railing Posts work as both anchor and receiver posts. Simply feed cable through the built-in cable guides. Our patent-pending design ensures that the cable travels in a one-way direction and won't pull out. Then simply tension the cable from either end using a socket or box wrench. The built-in cable fitting prevents cable rotation and permits single-handed tensioning.

### Simplifies Project Planning and Ordering:

- With built-in cable receiving AND anchoring in every post, you'll always have the exact type of end post you need.
- C.A.T. Cable Railing Posts accept bulk-roll, continuous cable—no need to plan out and buy specific cable lengths with coupled fittings, just roll out what you need at the jobsite and cut to length.

### Makes Installation Quick and Easy:

- Built-in cable tensioning fittings hold the cable in place preventing rotation, permitting single-handed cable tensioning from either end using a simple socket or box wrench.
- C.A.T. Cable Railing Posts are prefabricated and ready to install right out of the box. No welding or post assembly required.

## With Captive Anchoring and Tensioning Posts, Installation is Quick and Easy.

1. MOUNT PREFABRICATED POST.

2. PULL CABLE THROUGH FITTING.

3. TENSION CABLE FROM EITHER END WITH A SINGLE TOOL.

## The look of custom, the ease of Prefab.

Prefabricated Cable Railing posts offer an attractive, affordable, low maintenance and easy-to-install railing option for residential or commercial applications. They are extremely durable and virtually invisible, allowing for beautiful, unimpaired views.

## We've paid attention to all the details...

It's easy to finish off your railing project with the perfect handrail. Our beautiful satin 316 stainless steel tubing can be customized with a variety of end caps to complete your railing project. Our cable rail comes with everything you need for a quick and easy installation, including a threaded stainless steel terminal, stainless steel tensioning hardware, washers, and end caps.

Add the finishing touch to your railing project with Lavi Metal Polish. It cleans, polishes and protects polished metals with its anti-tarnish formula. And for a weld-free installation, use Loctite 326 structural adhesive for a secure, permanent bond between component pieces.

# TUBING

The tubing for top rail is one of the biggest considerations of any railing project. We stock tubing in multiple sizes, finishes and wall thicknesses. Our tubing is generally offered in 12', 16' and 20' lengths, however cutting services are available at either of our plants to customize lengths.
