

# Careers

Lavi Industries is a premier manufacturer of innovative commercial and architectural railing systems. The company is headquartered in Valencia, California with facilities throughout the US. Our continued growth and success has been achieved through the determination and talents of our dedicated employees.

## CAD Drafter/Designer

---

Valencia, CA

We currently have an opening for a CAD Drafter/Designer in our Railings product line. This dynamic candidate will report directly to the Railings Manager and will assist with creating drawings for mechanical components, assembly instructions, Bill of Materials (BOM) and project layouts using standard CAD drafting software such as Solidworks. The CAD Drafter/Designer will work with Sales, Engineering and Manufacturing to design prototypes while ensuring compliance with current production methods, maintaining quality standards and minimizing production costs. Knowledge of metal fabrication processes and familiarity with building codes and regulations preferred.

### Qualifications and Requirements

- Minimum of an associate's degree in an Engineering or Architectural school, or completion of technical trade school in CAD drafting
- Sound knowledge Solidworks and/or Autocad drafting software, as well as Microsoft Office
- Strong technical skills, with the ability to generate and read blueprints and mechanical drawings
- A basic understanding of materials and engineering principles in construction processes
- 3–5 years manufacturing experience

We offer the right candidate an opportunity to develop his/her full potential in an entrepreneurial environment, as well as an attractive compensation package.

Verifiable references and drug screen/background check are required.

Equal Opportunity Employer
