

## Director of Software Engineering

Valencia, CA

### Who We Are

Lavi Industries is the premier manufacturer of innovative queue management fixtures and software solutions for guiding people in, through, and out of commercial and government facilities. We are headquartered in Valencia, California with facilities in New York, and sales offices throughout the US. We pride ourselves in our pursuit of excellence through the dedication and integrity of our people since 1979. We offer the right candidate an opportunity to excel in an entrepreneurial environment, as well as an attractive compensation package. Come be a part of our team!

### Job Summary

The Director of Software Engineering will direct and manage the roadmap and development of Lavi's queue management software applications. You'll make meaningful contributions to the business strategy and be able to deliver exciting digital solutions through your leadership and management. The ideal candidate will have experience managing and growing software teams and have a track record of delivering major initiatives.

### Qualifications

- Ability to execute cross-platform initiatives, set milestones for a team and proactively ensure all core goals are met.
- Desire to be actively involved in the product development, mission, and success of the software deployment.
- Highly competent in value engineering and performance improvement.
- Ability to manage a cohesive technical road-map that's aligned with the product roadmap.
- Highly competent in software dev/QA industry tools and practices such as Visual Studios, Jira, Agile, and open source.

### Education and Experience

- A BS in Computer Science/Engineering (or similar technical degree) or relevant experience. MBA or Masters Preferred.
- 5 years of experience leading software development and QA management teams
- Relevant experience in managing outsourced software development teams
- Ability to execute cross-platform initiatives, set milestones for a team and proactively ensure all core goals are met.
