

Senior Full Stack Engineer

Valencia, CA

Who We Are

Lavi Industries is the premier manufacturer of innovative queue management fixtures and software solutions for guiding people in, through, and out of commercial and government facilities. We are headquartered in Valencia, California with facilities in New York, and sales offices throughout the US. We pride ourselves in our pursuit of excellence through the dedication and integrity of our people since 1979. We offer the right candidate an opportunity to excel in an entrepreneurial environment, as well as an attractive compensation package. Equal Opportunity Employer. **Come be a part of our team!**

Job Summary

Our team is looking for a Senior Full Stack Engineer to join an agile team of developers working on the bleeding edge of queue management technology, a rapidly growing industry. As a Senior Full Stack Engineer, you will become a leader and assist in the refactor of our core SaaS offering to a brand-new technology stack. You will create and implement a scalable and efficient architecture to bring our products to the next generation.

Responsibilities

- Contribute and lead a team of engineers in all aspects of development
- Deliver innovative solutions to drive the advancement of our products at scale
- Design new systems and participate in design reviews
- Be able to adapt to a rapidly evolving software ecosystem
- Deliver stable, efficient and quality code
- Mentor mid and junior engineers
