Come be a part of our team!

Job Summary

Lavi Industries is currently seeking a Software Development Manager to direct and manage the roadmap and development of Lavi's queue management software applications. Position is located in Valencia, Ca. You'll make meaningful contributions to the business strategy and be able to deliver exciting digital solutions through the leadership and management of software engineering. The ideal candidate will have experience in managing and growing software teams and have a track record of delivering major initiatives.

Qualifications

- Ability to execute cross-platform initiatives, set milestones for a team and proactively ensure all core goals are met.
- Desire to be actively involved in the product development, mission, and success of the software deployment.
- Ability to manage and prioritize multiple software development projects.
- Highly competent in value engineering and performance improvement.
- Ability to manage a cohesive technical road-map that's aligned with the product roadmap.
- Highly competent in software development / QA industry tools and practices such as Visual Studios, Jira, Agile, Open Source, etc.

Education & Experience

- Bachelor's degree in Computer Science / Engineering (or similar technical degree) or relevant experience. MBA or Masters preferred.
- 5 years of experience leading software development and QA management teams.
- Relevant experience in managing outsourced software development teams.
