

Software Developer

Valencia, CA

Who We Are

Lavi Industries is the premier manufacturer of innovative queue management fixtures and software solutions for guiding people in, through, and out of commercial and government facilities. We are headquartered in Valencia, California with facilities in New York, and sales offices throughout the US. We pride ourselves in our pursuit of excellence through the dedication and integrity of our people since 1979. We offer the right candidate an opportunity to excel in an entrepreneurial environment, as well as an attractive compensation package.

Come be a part of our team!

Job Summary

The Software Developer will be involved in every aspect of delivering a production-level system — conceptual system design, coding, testing, deployment and support. The Software Developer will work in a team environment with software developers, hardware technicians, support team, as well as the product director and manager. Requires a thorough understanding of software development for embedded systems, desktop applications, and server applications. A basic understanding of hardware systems is beneficial.

Responsibilities

- Create embedded, desktop, and web applications.
- Create, maintain, and data mine SQL databases.
- Test and debug software.
- Document software and procedures.
- Integrate software solutions using Application Programming Interface.
- Create technical specifications for hardware systems.
- Integrate hardware systems via Radio Frequency communication layer.
- Statistically analyze system data

Qualifications

- BS or MS in EE/CS or equivalent
- Two years of software development experience
